Smart Match

Minimum Team Size
4

Maximum Team Size
6

Project maximum and minimum team size limits are hard limits. If a project is unable to be staffed to the minimum team size limit, zero students will be placed on that project. These limits can also be set at the per-project level using Edit Project, and any per-project limits will override your selection here.

Add a minimum custom limit

Major
Operations   1
Marketing   2
Mechanical Engineering   1
Materials Engineering   1
Computer Science   1

Custom minimum limits are soft limits and will not prevent projects from being staffed if they cannot be met. These limits can also be set at the per-project level using Edit Project, and any per-project limits will override your selection here.
